Survey Families for Needs

KiNVO Provides Secure Off-Site Communications for Administrators, Educators, Staff, and Families.

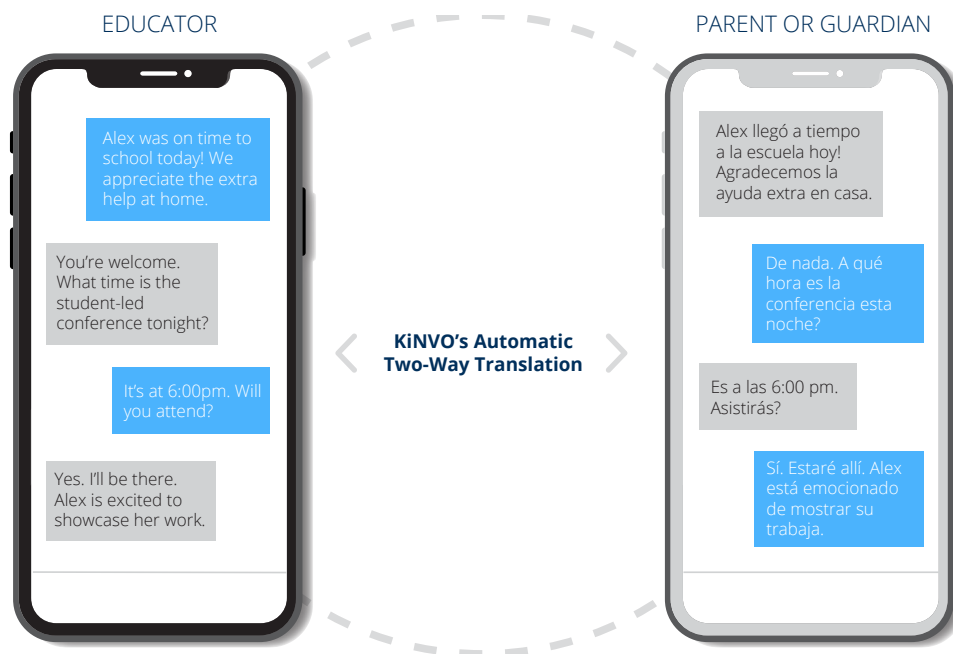

It centralizes everyone on one platform for complete transparency and compliance—anytime and anywhere—so that you can overcome your most pressing challenges.

01

Communicate with ELL Students and Their Families

How KiNVO Helps

KiNVO translates all two-way communications in 80+ languages so that your ELL students and families can read and reply to important communications in their home language.

“

In the past, we have worked on getting information out, informing parents that an event would happen. We could not have a two-way conversation with English learners. Now, with KiNVO we can talk about the event, answer questions, and build healthier relationships.

— Nicholas B
School Culture Coordinator

02

Coordinate Meals for Free and Reduced Lunch Students

How KiNVO Helps

- 1** Create custom groups with free and reduced lunch parents.
- 2** Send two-way messages in 80+ languages and immediately see the delivery status of the message.
- 3** Address questions via two-way messaging, and follow-up with contacts who didn't open the message to ensure they receive the update.

“

With less than **24 hours' notice**, we [used KiNVO to send details out to our families and] served over **4,350 breakfasts** and **4,550 lunches** today. I expect to see these numbers increase as families realize we are providing this service.

— Dr. Rindy T
Director of Nutrition

03

Monitor Students' Mental Health while Social Distancing

How KiNVO Helps

- 1** Send check-in messages via KiNVO and automatically archive all communications.
- 2** Share important information remotely with the rest of your team to keep everyone in the loop with student updates.
- 3** Follow-up as necessary to support students and their families.

“

Our goal is to use KiNVO as our platform for connecting our teachers with students for remote learning.

— Jessenia B
Community Associate

04

Provide Important Updates with Tracked Deliverability

How KiNVO Helps

Send important updates to tailored audiences and immediately track the deliverability in real time so that you can follow-up with those who didn't see or receive the message.

“

Honestly, Kinolved has been the most amazing resource during all of this. Our staff and parents love it.

— Alison A
Founding Principal

Secure, Off-Site Communications for All Administrators, Staff, and Families

How KiNVO Helps

KiNVO is the one-stop-shop for all stakeholders to communicate.

Two-Way Messages

Instant Language Translation

Emergency Alerts

Custom Groups

Archived Communications

No Parent Login

“

Again, I want to say thank you! Because of our long-standing support from you with Kinvolved, we are up and running and fully remote.

— Kay B
Principal

06

Contact Hard-to-Reach Parents

How KiNVO Helps

No Parent Login Required

Quickly and securely reach families on the devices they're already using. No need for clunky app interfaces or lost passwords to prevent parents from receiving the critical information they need.

Track Delivery

Immediately see who received a message and who did not, as well as who opened a PDF and who did not. Intervene where necessary by using the other communications methods on the contact record.

Instant Translations

Instantly translate two-way messages in 80+ languages to ensure all families understand your critical updates, and empower families to reply in their home language to open lines of communication.

“

Parents and guardians are busy, so getting a hold of them by calling them in the middle of the day has always been a challenge. However, with KiNVO, we've been able to improve family engagement by sending quick text messages to families with real-time updates. I've found this method to be effective because it isn't a major distraction from their day and they receive important information almost immediately.

— Meredith L
Physical Education and Health Teacher

07

Support Students with Remote Learning

How KiNVO Helps

- 1** Send PDF assignments as lightweight links via SMS text message.
- 2** Students complete assignment and return to teacher.
- 3** Teacher documents assignment.

“

When you were here last month, we never envisioned the critical role KiNVO would play in transitioning to a Distance Learning modality. Supporting 1,000 plus students who depend on mobile technology every day for learning is a mammoth operation on a good day, let alone under the current circumstances, so HUGE thanks to you and your team for helping to make the communications a pleasant experience.

— Handel T
IT Strategy & Logistics Coordinator

Track Remote Attendance

How KiNVO Helps

Continue tracking attendance while distance learning, and enable automatic notifications to contact parents when a student is absent.

“

KiNVO provides John Adams with an adaptable, user friendly system for attendance improvement, which allows schools to conduct real time attendance taking and family communication.

— Daniel S
Principal

009

Survey Families for Needs

How KiNVO Helps

- 1** Send survey links to targeted cohorts, specific schools, or the entire district in 80+ languages.
- 2** Track delivery and follow up with families who did not receive or open the link.
- 3** Analyze survey results and empower your team with data-driven decisions.

“

Communication with our families has never been more critical. As more and more of our staff begin to access KiNVO and reach out to families we are getting amazing feedback. Some teachers are letting us know that families they struggle to speak with all year are finally responding back to their KiNVO messages.

— Andrew G
Managing Director of Operations
