

## Shifting from the Classroom to the Computer

As we shift from the classroom to the computer, how has communication with parents changed? How has it stayed the same? Where can we strengthen the relationship? Let's reflect on what communication looked like in the classroom and what it looks like today from behind a computer.

	Classroom	Computer
What was the parental role?		
How did you communicate?		
How often did you communicate?		
What did you communicate about?		
What worked?		
What didn't?		

**Based on your responses above, what are your next steps to strengthen your relationships?**

## Family Outreach Schedule

Based on your exercise on page one, let's create an action plan for reaching out to families.

	Who	What	When	How
	Who needs to hear from you most?	What is your goal for the message or conversation?	When will you reach out to them?	How will you deliver your message?
